Skills for Life

We are working with Manchester City Council on their Skills for Life project. The pupils are all learning to recognise their development in 5 areas; communication, self-management, problem solving, self-belief, teamwork. These

are all being linked to our curriculums starting with the Enrichment Curriculum. This week we are all very proud of Logan in Maple for his work on Self-Management.

Acorns working hard!

It has been lovely to see the pupils back after half term and they have all settled straight back to their hard work. Acorns have been doing lots of work on

counting in 2s. This has lots of practical uses in maths work early

and is the skills of times tables.

Thank you!

Thank you to all the parents and carers for your support over the last 2 months. You have all worked so hard in helping your children to continue their learning at home.

I know how hard this has been. I am very proud of the work the pupils have done at home and this is thanks to both the teachers and you at home.

I also want to thank you for the support you have given the school and how much we have worked together to get through this difficult time.

Return to school

Now however it is time for the pupils to return to school. Yippee! We are really looking forward to seeing everyone.

Our risk assessment is very similar to before Christmas.

The children will be in their class bubbles with very little or no mixing. All the staff are tested twice a week and we are continuing with the other precautions around cleaning and handwashing.

I will share the key procedures from the reviewed risk assessment with you next week.

Pupil Testing

It has been on the news that all secondary pupils are to be tested for covid before they return. They will then be given home testing kits. I am sure you will agree that testing of our pupils is difficult. I am seeking advice from the LA on this matter. If you have any questions or want more information please email school or speak to your class teacher.

It will be lovely to see all the pupils back (except those shielding) on 8th March.

Best Wishes

Alison Randall
