14th May 2021

Mental health awareness week.

This week was Mental Health Awareness week. There theme was nature. It has always been recognised that being outside makes us feel better, it can raise our wellbeing. We all know how important it has been during lockdown to be able to go outside and many of us have found a new love for nature and/or

gardening.

Our pupils this week have all been exploring different types of gardening. Planting indoors and planting outdoors to improve our environment as well as make us happy. Why don't we all try this at home even in the rain!

Enrichment

Our pupils are continuing to develop their 'skills for life' through the enrichment curriculum. This week the young people have been developing their self belief. Alex earned his certificate for being confident and not giving up when being asked to think creatively.

School Dinners

We have a wonderful team of cooks in school who provide extremely good food for the children everyday. If you want to change your childs lunch to a school dinner (or to a packed lunch) we are happy to help. Please can you inform the school office and the kitchen will need a weeks notice to make the change.

Upcoming Events

Monday 17th May; Eid party in school. Pupils can wear party clothes and will have a celebration in their classes.

Best Wishes

Alison Randall
