Maple's Garden

Maple class have been working hard all spring to develop the area behind their classroom into an inviting and beautiful ecology space. They have made their own planters from recycled tyres, planted bee and butterfly friendly plants and pretty flowers. They have made their own bug hotels to

encourage all the wildlife to visit the garden.

I was honoured to be invited to officially open their garden and to join them for cake and juice.

Before I cut the ribbon the class had prepared a speech and told me all about what they had done and why they had made the choices in the garden.

choices in the garden.

They shared with me the rules for the garden and introduced me to Bandido the scarecrow!

I was not the most important person to recognise their amazing work. I am very proud to say that all of Maple class were awarded the Green Blue

Peter badge for all their hard work and Angie received a special mention for her bug

hotel.
Well done
Maple Class!
Best Wishes
Alison Randall
