## School Gardens

Over the past 2 newsletters I have shared the garden projects that Acorns and Maple have been working on. This week they have both been working on a shared project of tidying up the other quad. I am lucky as it is the one opposite my office.

Maple began by clearing a lot of the

fallen leaves and the weeds away. However they noticed that the pond was in a sorry state! Acorns started today with clearing out the pond. They all worked together to drain the water, obviously they had to catch all the fish first! Then came the dirty job of clearing out all the sludge! I could even smell it from my office but all the Acorns pupils were amazing and persevered. They also pruned lots of the trees and shrubs as well as jet washing the paving. Look at the results!

The water is so clear we can see the fish and now know we have 5!

## School Questionnaire

I have sent a letter home today asking for your views regarding our school, what we have already achieved and what you feel we could work on. I will be asking the staff and pupils similar questions. This will help us to form our school development plan for next year. If you can the easiest way to complete it is online via the link below.
