15TH January 2021

Welcome Back!

It has been lovely to welcome some of our pupils back into school this week. Everyone has settled back into the routine and are enjoying

learning again.

Heating

We have had some problems with our heating this term. The engineers have been called and it is working again now. Our Covid risk assessment is following the guidance from public health which says that we need ventilation to reduce the risk of spreading coronavirus. This does mean we have our windows open. We are using heaters where possible and no child will be too cold. However please help us by making sure your child comes to school in warm clothing.

Testing of staff

We have tested all staff this week and our processes are running smoothly. You may have read in the press that the regulators have not agreed to testing in schools. This

was testing of staff and pupils everyday if they were a contact of a positive case. As we could not test our pupils this was not something I was planning on. Our weekly testing of staff is regulated and run by trained staff.

Remote learning

I hope you are all accessing our remote learning offer. I know all the classes are making available lots of different types of learning that will meet the needs of the pupils in their classes.

If you are finding this difficult to complete or are unable to access it please do speak to your class teacher and we will be able to help.

It has been lovely to

see some of the home

learning and how much our pupils are enjoying still being part of the class and school.

Best Wishes

Alison Randall

Headteacher
