## Lovely Art.

We have been having some lovely art lessons in Acorn's class. They have been learning about volcanoes and using this as

a creative stimulus. I am very impressed.

While in Birch class they have been

using nature as a stimulus for their 2d collage work.

## Funky Science

Beech class used George's Marvellous medicine for their science lessons. They explored how different materials mixed together, what do you think of their creations?

Maple class also looked at the digestive system and made their own! Looking at how food travels through.

## Press

I am sure heard lots of schools in **reports** you have about the news at the moment. I want to say thank you to all of our families for your helping our pupils to access the remote learning. We all appreciate how hard this can be. I also want to thank everyone who is following the lockdown rules and helping everyone to stay safe. It is sad to hear of other schools where this is not the case. I know this is hard but let's keep going and we will be out of this as soon as it is safe.

Best Wishes
